Art Unit: 1771

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/30/07 has been entered.
2. Claims 1-4, 6-9, 11, 14-15, 18-20, 22-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not provide support for a structure wherein the nonwoven fabric has 100% by weight thick thermoplastic fibers. The upper limit for the thick thermoplastic fibers found in the specification is 90% by weight.
3. Claims 1-4, 6-9, 11, 14-15, 18-20, 22-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear how the nonwoven fabric can comprise 100 % by weight of the thermoplastic fibers and also comprise 1-50% by weight of the thin crimped thermoplastic fibers.
4. Applicant's arguments regarding the prior art references failing to teach or suggest the particularly claimed thick and thin fibers dtex is persuasive and the art rejection is withdrawn.
